CORPS OF ENGINEERS, U. S. ARMY  
Office of the District Engineer  
NEW ORLEANS DISTRICT  
Foot of Prytania Street  
New Orleans 9, La.

LMNGO

13 February 1956

NOTICE OF PUBLIC HEARINGS  
on  
PROBLEMS CAUSED BY HURRICANES IN THE  
COASTAL AND TIDAL AREAS OF LOUISIANA

Pursuant to Public Law 71, 84th Congress, approved 15 June 1955 the District Engineer, New Orleans District, Corps of Engineers, has been directed to make an examination and survey of the seaboard areas within his District limits with respect to hurricanes, with particular reference to areas where severe damages have occurred. Section 2 of the Act states that: "Such survey to be made under the direction of the Chief of Engineers, shall include the securing of data on the behavior and frequency of hurricanes, and the determination of methods of forecasting their paths and improving warning services, and of possible means of preventing loss of human lives and damage to property, with due consideration of the economics of proposed breakwaters, seawalls, dikes, dams, and other structures, warning services, or other measures which might be required."

In order that the report may fully cover the intent of the above-mentioned Act, public hearings to obtain information on the problems caused by hurricanes in that part of the Louisiana coastal and tidal areas, including Lake Pontchartrain, within the New Orleans District (all of the Coastal area of Louisiana except the Pearl River and Sabine River watersheds) will be held at the following times and places:

<u>City</u>	<u>Time</u>	<u>Place</u>
New Orleans, La.	10:00 a.m., 13 March 1956	Jackson Room St. Charles Hotel
Morgan City, La.	10:00 a.m., 15 March 1956	City Hall
Lake Charles, La.	10:00 a.m., 20 March 1956	Court House

All interested parties are invited to be present or represented at any of the above places including representatives of Federal, State, Parish and municipal agencies, and those of commercial,

industrial, civic, highway, railroad and waterway transportation and other interests, and property owners concerned. They will be afforded full opportunity to express their views concerning the character and extent of the improvement desired and the need and advisability of its execution. Sponsors of any improvement are urged to present pertinent factual material bearing upon the general plan of improvement desired and the economic justification of the undertaking. Opposing interests, if any, are also urged to state the reasons for their position.

\*  
Tell the  
beds  
what you  
want.

To aid local interests in preparing for the public hearing, the subjects on which factual material is requested are:

a. An indication of the developed areas subject to inundation by high tides and waves caused by storms.

b. Damages caused by such inundation, waves and winds for each major storm experienced in the locality, classified as to residential, commercial, industrial, railroad, highway, agricultural and public damages; also such indirect losses resulting from cessation of business, interruptions to traffic, and the like.

c. Loss of life.

d. Physical data on past storms which caused damage to include:

- (1) Date of storm.
- (2) Specific tide and wave heights.
- (3) Intensity and duration of winds.

e. Assessed valuation of lands and buildings affected by tidal inundation, and the anticipated increase in value thereof if inundation were eliminated.

Oral statements will be heard, but for accuracy of record all important facts and arguments should be submitted in writing, in six copies, if possible, as the records of the hearing will be forwarded for consideration of the Department of the Army. Written statements may be handed to the undersigned at the hearing or mailed to him beforehand.

Please bring the foregoing to the attention of persons known to you to be interested in the matter.

*William H. Lewis*  
WILLIAM H. LEWIS  
Colonel, CE  
District Engineer
